

INTERDISCIPLINARY JOURNAL OF INFORMATION, KNOWLEDGE, AND MANAGEMENT

Volume 10, 2015

Editors-in-Chief: Mike Hart, Kevin Johnston, and Elsje Scott,
University of Cape Town, South Africa

Managing Editor: Eli Cohen, Informing Science Institute, USA

Publisher: Elizabeth Boyd; Informing Science Institute, USA

Editors:

Jeffrey Alstete, Iona College (USA)

Jörg Lässig, University of Applied Sciences Zittau/Görlitz (Germany)

Nelson K. Y. Leung, RMIT International University (Vietnam)

Geoffrey Z. Liu, San Jose State University (USA)

June Lu, University of Houston-Victoria (USA)

Rajeev Manhas, Baba Farid University of Health Sciences (India)

Jayanthi Ranjan, Institute of Management Technology (India)

Muzafer H. Saracevic, University of Novi Pazar (Serbia and Montenegro)

Christine Nya Ling Tan, Multimedia University (Malaysia)

Maureen Tanner, University of Cape Town (South Africa)

Michael Tomblin, Marshall University (USA)

John K. Webber, University of Phoenix (USA)

Ewa Ziemia, University of Economics in Katowice (Poland)

The mission of the Interdisciplinary Journal of Information, Knowledge, and Management (IJIKM) is to provide readers with the widest possible coverage of the use of information and technology to effectively create, apply, and communicate knowledge in organizations. In addition to manuscripts that center on knowledge acquisition and sharing, agent-based systems, neural networks, genetic algorithms, learning systems, and natural language processing, we welcome manuscripts on a wide range of topics relating to the organizational use and management of information and technology.

IJIKM publishes scholarly conceptual, theoretical and empirical manuscripts on the use of information technology to enhance organizational performance. Submissions to the journal should be readable and understandable by a wide audience. Manuscripts should therefore also focus on practical application or illustration of the issues covered, rather than merely providing a mathematical or technical coverage, which would be more suitable for a specialist journal.

All manuscripts are submitted and reviewed electronically. We provide our published authors with both a quality print publication and the widespread readership that comes from publishing all manuscripts online within a few weeks of acceptance. This approach ensures that published works are read and cited by the widest possible audience.

IJKM is an academically peer reviewed Journal. All submissions are blind refereed by three or more peers. IJKM is published in print by subscription and its articles also appear online free of charge on the web site **<http://ijikm.org>**

IJKM is listed in Cabell's Directory of Publishing Opportunities in Educational Technology & Library Science, Cabell's Directory of Publishing Opportunities in Management, Directory of Open Access Journals (DOAJ), EBSCO, Index of Information System Journals, Ulrichs.

IJIKM Volume 10, 2015 – Table of Contents

Influential Factors of Collaborative Networks in Manufacturing: Validation of a Conceptual Model Wee Hock Quik, Nevan Wright, Ammar Rashid, and Sivadass Thiruchelvam	1-19
HUNT: Scavenger Hunt with Augmented Reality Yan Lu, Joseph T. Chao, and Kevin R. Parker	21-35
KenVACS: Improving Vaccination of Children through Cellular Network Technology in Developing Countries George Gatuha and Tao Jiang	37-46
Change Management in Information Systems Projects for Public Organizations in Poland Ewa Ziemba and Iwona Oblak	47-62
Factors of Project Manager Success Raafat George Saadé, Heliu Dong, James Wan	63-80
The Potential for Facebook Application in Undergraduate Learning: A Study of Jordanian Students Ayman Alarabiat and Samer Al-Mohammad	81-103
Knowledge Capture and Acquisition Mechanisms at Kisii University Nemwel N. Aming'a	105-116
Employees' Involuntary Non-Use of ICT Influenced by Power Differences: A Case Study with the Grounded Theory Approach Thale Kvernberg Andersen	117-143
Perceived Organizational ERP Benefits for SMEs: Middle Eastern Perspective Soud Almahamid and Omer Awsi	145-172
A Qualitative Descriptive Analysis of Collaboration Technology in the Navy Ryan Wark and Jon Webber	173-192
How the Use of ICT can Contribute to a Misleading Picture of Conditions – A Five-Step Process Stefan Holgersson	193-215
Estimating the Accuracy of the Return on Investment (ROI) Performance Evaluations Alexei Botchkarev	217-233
